

UNITED ATF 9HP

Product Description

Fully synthetic automatic transmission fluid formulated using advanced technology allowing for very high performance needed for the demanding requirements of ZF 9HP automatic gearboxes. It is formulated with the latest additives available that ensures excellent oxidation stability and constant friction characteristics for a wide variety of 9-speed automatic transmission requirements.

With its fully synthetically based and with improved thermal-stability and corrosion prevention, it provides a hassle free, smooth running auto transmission all year around and thus extended service life of bearings and gears.

This oil helps to reduce the entire driveline's energy consumption while raising driving performance and driving comfort. Thus, it realizes all developed concepts in a cost-effective way. It is suitable for use in automatic transmission of the latest 9HP-Series (9-speed automatic transmissions), 8HP-Series and 6HP-Series. It is NOT suitable for use in DCT/DSG (double clutch) or CVT (continuously variable automatic) transmissions.

Applications / Benefits

- * Excellent thermal and oxidation stability
- * Superior protection against wear, rust and corrosion
- * Much enhanced fluidity at very low operating temperature
- * Superb viscosity stability in operation

Typical Characteristics

Test Description	Method	Unit	
Density @ 15 °C	ASTM D 4052	kg/L	0.836
Flash Point	ASTM D 92	°C	208
Pour Point	ASTM D 97	°C	-45
Kinematic Viscosity @ 40°C	ASTM D 445	cSt	27.2
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	5.96
Viscosity Index	ASTM D 2270	-	174
Appearance	Visual	-	Light Green/ Amber
