

UNITED SP-IV RR

Product Description

Fully Synthetic Automatic Transmission Oil specially formulated with premium fully synthetic base oils and high-tech additive package to meet the demanding requirements of the ATF SP-IV RR specification, which is widely applicable to automatic transmissions in Hyundai and Kia vehicles.

This product delivers enhanced frictional stability for smooth, quiet gear shifting and minimizes transmission shudder for a more refined driving experience. Outstanding resistance to thermal breakdown and oxidation helps maintain internal cleanliness, ensuring reliable performance even under harsh operating conditions while extending fluid service life.

Additionally, its excellent low-temperature characteristics provide immediate lubrication during cold starts, contributing to both superior protection and improved fuel economy.

Applications / Benefits

- * Delivers exceptional oxidation and thermal stability
- * Provides superior wear protection, enhancing overall service life
- * Offers reliable protection against corrosion and foaming
- * Ensures excellent low-temperature fluidity for optimal cold-start performance

Typical Characteristics

Test Description	Method	Unit	
Density @ 15 °C	ASTM D 4052	kg/L	0.8450
Flash Point	ASTM D 92	°C	198
Pour Point	ASTM D 97	°C	-45
Kinematic Viscosity @ 40°C	ASTM D 445	cSt	26.7
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	5.7
Viscosity Index	ASTM D 2270	-	160
Appearance	Visual	-	Red
